

SYMPLYATOM

PRE-RELEASE SOFTWARE AGREEMENT

SYMPLYATOM V1.0 | BUILD 1.7

Thank you for accepting this pre-release version of SymplyATOM management software for Symply LTO products.

The software provided is a pre-release copy – as are the affiliated materials and support documentation – and are subject to change without notice. This software is licensed “as is” and may contain bugs and stability issues.

While Symply does not expect that users will experience any adverse conditions using this software, Symply will not accept any liability for data loss, damages, or loss of profits incurred through the use of the pre-release software. Symply has no express and implied warranties for the software and the users accept they are using the software at their own risk.

RIGHTS

Unless otherwise terminated, **rights to use of this pre-release software expire upon release of the commercial version of SymplyATOM.**

The pre-release version of the software remains property of Symply during and after use of the software.

IMPORTANT:

Upon commercial release of SymplyATOM users are required to destroy all existing versions of the pre-release software.

SUPPORT

During the pre-release period minimum support may be available for the software as not all features are supported and/or functional. Symply is not obligated to provide support for pre-release software. Any support provided for the pre-release software will not continue once the commercial release is made available.

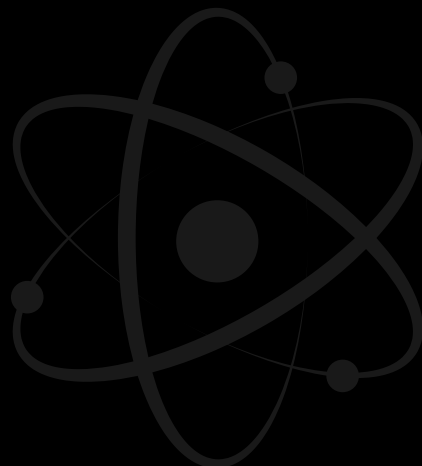

NOTIFICATION OF COMMERCIAL RELEASE

To be informed once the commercial version of the software is available for no-cost download please email:

hello@gosymply.com
